You will need a piece of paper and two different colors so the 3D letter is more dramatic. Step 1 In a new document, use the Type Tool to place text on your canvas.

If you already have the black to white gradient selected, you can skip this next

The globalCompositeOperation chart shows GCO modes at work; this chart uses a large portion of the color-spectrum and multiple levels of alpha transparency in order to see in detail what to expect. All of these layers will appear highlighted in blue in the Layers palette.

The solution is to convert our text layer into what's called a shadow layer. The following example shows how to create an animation, sending thousands of calls to strokeText through a low alpha without stalling the browser.
