nerds of a feather, flock together: Microreview [book]: A Darkling Sea by James L. Cambias

Start by marking "A Darkling Sea" as Want to Read: On the planet Ilmatar, under a roof of ice a kilometer thick, a team of deep-sea diving scientists investigates the blind alien race that lives below. A Darkling Sea by James Cambias has one of the best opening lines I've ever.

A Darkling Sea by James Cambias

On the planet Ilmatar, under a roof of ice a kilometer thick, a team of deep-sea diving scientists investigates the blind alien race that lives below. The Terran.

NPR Choice page

It's only when you open a new SF novel and discover that it's an unabashedly old -school story of scientific exploration and alien first contact that you realize just.

James Cambias - Wikipedia

James Cambias is an American science fiction and fantasy writer and tabletop game designer. Cambias has said that follow-up novels to both Corsair and A Darkling Sea are in the works. Cambias has become known for attending.

Perhaps, though, Cambias intends to write more books in this universe, in which case I eagerly await. Oh yes, potential plot bunny for a sequel? I get the feeling that the reader is supposed to be rooting for the humans on the research station, as if they're making brave and noble decisions. The implication is that it was the Ilmatarans themselves who constructed the Literary Agent. And do not speak of this to anyone! Why are you keeping it locked up? Are you sure you want to continue? He co-opts the expedition's cameraman to come along as he gets the first-ever close-up footage of the natives, and winds up capturing an engaging clip when the very curious aliens take an interest in the little man who isn't there, confounding their senses. Overall, this is a tense, well-constructed SF novel of first contact, done in the classic Campbellian style and lit up with the sense of discovery that such works ought to .
