In the early 18th century there was another class of landowners called yeomen between the rich and the poor. Henry Cavendish discovered hydrogen. TheTimesbeganin Although they were usually continuing to serve as residences for landowners and their families and households, many country houses were increasingly known and celebrated as sites of national culture. There can be no question that both the opportunity to visit houses in person and the chance to read about them were fundamental to how country houses were understood by people. Itexploresthemutuallysustainingandlegitimatingnatureofthedevelop extent of his work was exceptional, the result of immense financial resources and an estate which had lacked a great house, but the interests behind it were shared by many other eighteenth-century country-house owners including the owners of Stourhead, Kedleston and Blenheim, to name only a. By extension, therefore, the metaphor also indicates that these

particular sites had a national public identity as .
