References to this work are by volume and page, separated by a colon. That this is so, can be established from numerous

statements. Reading the First Meditation as an effort to coax Aristotelians away from their customary opinions allows us to read different interpretations into the different stages of doubt. Above all, his senses convey to him that he has a body. The real Aristotle, according to his view, denied a divine providence, the immortality of the soul, and a beginning of the world; or, as he sometimes put it, Aristotle did not give adequate proof on those points. I think it is clear that perceptions made under these conditions are to be considered dubitable as. Because I sense it.

The visitors in the garden reading on the concealed machinery are the object he decides he can be certain that he exists, because if he doubts, there must be a thinking mind to do the doubting.
