Mammals serve a major role in science as experimental animals both in fundamental biological research, such as in genetics, [13] and in the development of new medicines, which must be tested exhaustively to demonstrate their safety. Cultural universals in all human societies include expressive forms like art, music, dance, ritual, religion, and technologies like tool use, cooking, shelter, and clothing.

There is no creature except, perhaps, the angels so wholly native to the upper realms. Are you confused about what are the right foods to eat? Hunter was many things – anatomist, royal physician, bibliophile, collector, historian, patron of the arts, teacher – and this exhibition sets out to explore the various aspects of his life and legacy as well as the meaning of the museum he developed throughout his life.

Uh-oh, it looks like your Internet Explorer is out of date. Sometimes nations have had to be wiped out because of the wickedness of the people who live in. On at least one occasion, this prompted Stephen Spender to run away.
