Social interaction and play are fostered by the unique design
of the swings: When all of the swings are used simultaneously,
they compose musical pieces in which certain melodies are
available only through cooperation. Conclusions Urban design
essentially defines the physical elements of the built

Despite being a top tourist destination, narrow sidewalks and vehicular congestion are a major concern. Interest for public space continued after the thesis and she participated in workshops, conferences and competitions. Speeding cars pose the biggest threat on many of our streets, but crime - real or perceived - can also keep a street from teeming with life.
